ABOUT ME

Tech enthusiast since a young age, now proficient in building responsive and interactive websites with Next.js. Currently pursuing Cloud Agentic & Robotic Engineering Certification from PIAIC. Strong grasp of modern web development techniques, focused on delivering dynamic and engaging user experiences. Eager to apply innovative, creative solutions in real-world projects.

EXPERIENCE

Servletsoft Technologies

Sales Representative JUNE-SEPT(2024)

Managed and coordinated graphic design sales on Discord. Engaged with potential clients to understand their needs and deliver tailored graphic solutions.

PROJECTS

PERSONAL PORTFOLIO

- Developed a personal portfolio using Next.js to showcase skills and projects.
- Applied responsive design techniques with Tailwind CSS for an optimized mobile and desktop experience.

BLOG WEBSITE

- Built a dynamic blog website using Next.js with full support for markdown content.
- Designed a clean and minimalist interface with dark mode toggle

MULTIPLE ANIMATED WEBSITES

- Experienced in creating visually appealing animated websites using CSS, JavaScript, and modern libraries to enhance user interaction.
- Ensuring seamless user experiences across all devices and screen sizes.
